

Rhema Emmanuel-Great Oshiokhua

Mobile Developer

✉ emmarhema20000@gmail.com ☎ +234 704 1099 662 📍 Warri, Nigeria

Professional Summary

Creative and technically skilled Mobile Developer with a strong focus on React Native and cross-platform app development. I build fast, user-focused mobile applications that combine seamless UI/UX with performance and scalability.

With over 2 years of experience across mobile development, frontend engineering, and multimedia design, I specialize in turning product ideas into polished, production-ready apps.

Experience

- | | |
|----------------|---|
| 2024 – 2025 | Frontend Mobile Developer, MaxiHealthCare
Built and maintained a React Native health-tracking app with robust API integration.
Designed and implemented pixel-perfect UIs using NativeWind and reusable components.
Integrated push notifications and offline caching for smooth user experience. |
| 2024 – Present | Front-End Web Developer, Fluxrware Tech
Developed progressive web apps (PWAs) and mobile-optimized websites using React and Next.js.
Created component libraries for scalable UI development. |
| 2024 – 2025 | Data Miner (Contract), Naya Capital
Extracted and structured data from multiple sources (APIs, logs, CSVs).
Cleaned and transformed datasets for internal mobile dashboards and analytics tools. |
| 2024 – 2025 | Video Editor & Graphic Designer, Rhembow Labs
Designed app promo videos, motion graphics, and visual branding assets.
Edited tech product walkthroughs using Davinci Resolve and After Effects. |
| 2023 | Network Admin Intern, NNPC-NGML
Supported IT infrastructure and participated in WAN/LAN troubleshooting. |

Education

- | | |
|-------------|--|
| 2020 – 2024 | B.Sc. Software Engineering, Babcock University |
| 2014 – 2020 | Federal Government College, Warri |
| 2017 | Certificate in Computer Science, Rolof Computer Academy |

Key Skills

Languages & Frameworks — JavaScript (ES6+), TypeScript | React Native, Expo, React | Node.js, Express.js, MongoDB | JWT Auth, API Integration | Next.js (for hybrid web/mobile apps)

Tooling & Creative Stack — Git & GitHub, Firebase | Three.js for 3D interactions | Blender 3D, After Effects, FL Studio | Davinci Resolve Studio (for app promo assets)

Core Strengths — Cross-platform UI/UX | Reusable component architecture | State management (Zustand, Context API) | Motion & animation with Moti/Reanimated | Performance tuning & debugging | Mobile-first design thinking

Hobbies & Interests

Mobile UI Design, Digital Music Production, Video Editing for Tech Content, Gaming & Streaming, 3D Animation for App Prototyping

Certifications

Udemy
React and Nextjs
